PUBLIC NOTICE

Calcutta-1, the 5th November 1964

Policy for Export of Ferrous Scrap & Finished Steel during October 1964 to March 1965 period

No. B&E/E/II/64-65—Export of ferrous scrap would be allowed to be made during the period October 1964—March 1965 by established exporters who have exported scrap during any of the three years ending March 1964. The exporters may choose the best year from the three year period for the purpose of obtaining base quota certificates certifying the quantity and value of the best year's export. Separate base quota certificates will have to be obtained for (a) Skull scrap, (b) de-tinned scrap and (c) other varieties of scrap. Export Licences will be issued only for the varieties of scrap for which base quota certificates are held by the exporters. But in view of the fact that only a few parties entered into the skull scrap trade at the time when its export was allowed on *ad hoc* basis a quota will be reserved to the extent to be fixed by the Iron and Steel Controller for export of steel skull scrap by any new party who may like to enter into this trade. The export quota of the current period of individual exporters for each variety of scrap will be determined by the Iron & Steel Controller on the basis of foreign exchange made available for the import of iron and steel against foreign exchange earnings by export of ferrous scrap. Export licences will be issued only up to the ceiling of the export quotas fixed for the period. Against actual earnings of foreign exchange by export of ferrous scrap, supported by Bank Certificates, exporters may apply for import of finished steel, the categories, prices, conditions of import and distribution thereof being governed by the decisions of the Iron & Steel Controller from time to time. Exporters will be permitted to export scrap against licences from any port in the Union of India. If the export quota allocated is not utilised by any exporter within the period the Iron and Steel Controller reserves the right to cancel the unutilised quota and to re-allocate it to other established exporters or new comers who come forward to export scrap. The following clarifications may be noted with regard to export of different varieties of scrap.

1. *No. 1 quality Sheet Cuttings*. Export will be allowed subject to a maximum of 20 per cent of the exports of Nos. 2, 2A & 3 quality sheet cuttings during the period.

2. *Nos. 2, 2A & 3 Quality Sheet Cuttings*. Export of these Sheet cuttings will continue to be licensed freely within the base quotas fixed by the Iron & Steel Controller.

3. *Borings and turnings*. Exports of steel borings and turnings will be allowed on the basis of the actual export of the similar materials during the six months period ending in September 1964. In addition oxidised an inferior quality of borings and turnings will be allowed to be exported on *ad hoc* basis.

Export of cast iron borings and turnings will be allowed.

4. *Detinned Scrap*. Detinning Factories will be permitted to export their arising of detinned ferrous scrap within the base quota fixed by the Iron & Steel Controller.

5. *Cast Iron and Steel Skull Scrap*. The following policy will be followed :—

- (i) Export of Main Producers' Steel Skull Scrap will be allowed.
- (ii) Export of Electric Furnace skull scrap will be allowed.
- (iii) Export of cast iron Skull Scrap will not be allowed in view of acute shortage of Pig Iron.

6. *Tool Steel Scrap*. Export of tool steel scrap will be permitted subject to the production of analysis report at the time of shipment to the satisfaction of the Iron and Steel Controller that the scrap sought to be exported falls within the category licensed.

7. *Heavy Melting Scrap*. Export of heavy melting scrap will not be allowed.

8. *Other varieties of scrap*. Export of such varieties as high silicon sheet cuttings, chilled rolled, etc., which cannot be utilised in the country will be permitted.

9. *Inspection*. Actual shipment of scrap will be subject to inspection by the Inspectorate of the Iron and Steel Controller.

10. Applications for export licences on prescribed form, along with necessary treasury challan and current income tax verification certificate number, from intending exporters of the above types in the Eastern Region should be sent to the Iron and Steel Controller, 33, Netaji Subhas Road, Calcutta. Applications on prescribed form for exports from the Ports of Bombay and Kandla, accompanied by all particulars should be sent to the Dy. Iron & Steel Controller, Government of India, Everest Buildings, 6th floor, 100-Netaji Subhas Road, Bombay, and applications on prescribed form for export from the ports of Madras and Cochin, Vishakapatnam accompanied by all particulars should be sent to the Asstt. Iron & Steel Controller, 15, Mc. Nichols Road, Madras-10. Such applications should be made immediately as applications received after 31st January, 1965 cannot, for obvious reasons, be entertained. All export licences for this period will be valid for shipment up to midnight of 31st March 1965.

11. The unutilised balance of the export quota of scrap issued for the previous period, i.e., April to September 1964 will be distributed to established exporters desirous of exporting additional quantity of scrap after completion of shipment against their normal quota for the current period in proportion to the tonnage actually exported by them against quota for this period.

12. The policy enumerated in paragraphs 1—11 above is applicable only to exports on barter basis. Export of any of the exportable varieties of scrap will be allowed without any quantitative restriction on cash basis.

13. *Rolled Steel*—The export of Rolled Steel materials will also be allowed during this half-yearly period ending March, 1965. List 'A' enclosed with this notice contains items which are available freely for export either as rolled products or for fabrication of engineering goods proposed to be exported. List 'B' gives the particulars of materials which may be available in limited quantities for export either as rolled products or as fabricated engineering goods. Materials not included either in list 'A' or in list 'B' shall not normally be available for export.

So far as items included in list 'A' are concerned, there would be no objection to any exporter of rolled steel or of engineering goods to enter into export commitment without making any prior reference to the Steel Control. In respect of items mentioned in list 'B' a reference should be made to the Iron & Steel Controller, before entering into any commitment for export, to ascertain whether any export commitment can be made. A decision as to whether such materials would be available for export would be given to the intending exporter within a week from the date of receiving the reference from such exporter.

In respect of items not included in lists 'A' or 'B' if there is any specific offer which may be considered beneficial to the country, a reference may be made to the Iron & Steel Controller for ascertaining whether the material in question would be available. In no circumstance, however, any prior commitment should be made in regard to such items and items mentioned in list 'B'.

Intending exporters may receive offers for export of rolled steel of non-Indian specifications or of fabricated goods made out of rolled steel of non-Indian specifications. Normally, the question of manufacture of such steel of non-Indian specification will not be considered. However,

if the order is of comparatively large magnitude, and if the offer seems beneficial from price angle the question of specially rolling such steel may be considered.
